WORK EXPERIENCE

Web Developer at Synechron Digital Onboarding - Synechron (Transamerica)

11/2023 - Present

Pune, India

About Project/Tasks

- New account opening and account editing flow: We facilitate users in discerning optimal funds and identifying the most advantageous retirement plans. This process, formerly reliant on manual procedures, is presently undergoing a transformative shift towards a cutting-edge digital methodology.
- Implemented an entitlement solution (Using JavaScript, NJK, HTML, CSS) catering to diverse user roles, facilitating clear delineation of read and write access based on each role's specifications. Conducted successful Proof of Concepts (POCs) and developed a robust solution.
- Responsible for requirements analysis, technical design, implementation, testing and documentation.
- Implemented authentication for internal users by integrating with Active Directory (AD) groups. Users granted membership in valid AD groups gain access to the application, ensuring secure and authorised usage. Conversely, if a user does not belong to a valid AD group, access to the application is restricted.

Web Developer at Synechron Onepayroll - Synechron (Transamerica)

09/2022 - 10/2023

Pune, India

About Project/Tasks

- Payroll system validating user information in uploaded files through a four-step workflow.
- Users upload files containing personal data, including user account information and Social Security Numbers (SSNs). They address errors using the tolerance report. If there are no errors, users can proceed to the funding page; however, if errors exist, users need to resolve them. Subsequently, they select funding options (ACH, CIF) and confirm the payroll system workflows.
- Translate UX design wireframes and mockups into responsive and user-friendly web pages using front-end development technologies such as Angular, JavaScript, Unqork, CSS3, HTML5 etc.
- Involved in requirement gathering with Business Team.
- Ability to work collaboratively, meet deadlines, and solve problems creatively.
- Supported for production release.

EDUCATION

BE Computer Sinhgad College of Engineering, Pune

02/2018 - 02/2022
